SLIMLINE Series Tanks

The Slimline Series Tanks are manufactured from medium density recyclable polyethylene for endurance and strength.

They are compact and strong.

The Tanks lightweight and stable design makes for easy transportation and installation.

Dimension and weight
Model: Acuaría 07S3

- A 479
- B 125
- C 1"
- Kg 10

Note: Please allow 500mm clearance for Horizontal tanks and 750mm clearance for Vertical tanks for easy pump removal.

All Units and or Trays must be installed on a perfectly clean and even platform. The base of this platform must be of a suitable strength to evenly support the full weight of the unit when it is full to its capacity of water depending on the tank size.
