

AQUABOX Systems®

THE ULTIMATE SOLUTION TO COLD WATER BOOSTING

SPACE SAVER Series

SPACE SAVER Series

COMPACT RANGE

FEATURED HIGHLIGHTS

- **Compact design** for space-restricted-applications
- Hassle free **"Plug n' Play"** installation.
- Constant **pressure** and **flow**
- **CE Approved potable water Tank**, that is non-corrosive, robust, and designed with built-in strengthening ribs.
- **Dry run protection** Controller with pressure gauge.
- **Back-up diaphragm** to compensate for small leaks or drips in the hydraulic system.
- **Shut-off valve** as standard.
- Made with Eco-friendly materials and products.
- Aquabox Systems **2 Year limited warranty**.

The All NEW **Aquabox Systems - Space Saver Series** for all your Domestic and Commercial clean water applications.

It's sleek compact system designed for storing clean and potable water with reliable constant pressure.

The **Aquabox Systems - Space Saver Series** makes plumbing easy, hassle free, creating more space and less noise for greater comfort.

ESPA Acuaría 07S 3M + 4M

The Acuaría 07S range from Espa comes as a submersible multistage pump

- 3M:** 300l and 500l tanks
- 4M:** 725l and 1000l tanks

Motor

Asynchronous 2 poles.
IP68 protection.
Class F insulation.
Continuous operation.
Water cooled motor.
Single phase motor with built-in thermal protection.

Aquabox Systems Controller

The Aquabox Systems Controller starts the pump at the minimum water request and protects against dry running.

Inspection-able and integrated check valve, integrated pressure gauge, smart auto-reset and anti-seize function are standard.

Compact, adjustable, smart.

Performance curve at 2900 rpm

Additional Accessories

- Tank drip trays
- Tank insulation jackets
- Tank acoustic mats
- 8lt In/Out pressure tanks

Space Saver Series Tanks

The Space Saver Series Tanks are manufactured from medium density recyclable polyethylene for endurance and strength, they are compact and strong.

The Tanks light weight and stable design makes for easy transportation and installation.

Note: Diameter includes handles

Note: Please allow 500mm clearance for Horizontal tanks and 750mm clearance for Vertical tanks for easy pump removal.

All Units and or Trays must be installed on a perfectly clean and even platform.
The base of this platform must be of a suitable strength to evenly support the full weight of the unit when it is full to its capacity of water depending on the tank size.
